

# RED SHARK bikes

Start a **NEW** adventure with a  
Red Shark Bike

# Want a new experience on the water?

Red Shark Bikes, made in Spain, are a premium aquatic bike that combines the best of both water and land sports into a unique fitness and leisure experience.

Red Shark Bikes allow riders to pedal peacefully over the water with greater stability and speed than a stand-up paddle board. Adaptable to your own personal fitness level, these bikes are the ultimate new adventure bike.

Available in three models

## ENJOY model

The Enjoy model offers riders unrivalled water adventures.

This bike is ideal for those wanting to explore their aquatic world from a different perspective in premium comfort.

## FITNESS model

The Fitness model has a high performance design allowing cyclists to train with greater speed and agility.

An ideal model for cycle enthusiasts who want to take their training to the next level.

Find a model to suit you

## ADVENTURE model

The Adventure model was designed to allow explorers to get up close and personal with nature.

This bike is ideal for long hours on the water, allowing you to travel silently into remote areas to find your favourite new fishing spots.
