

There are many options for transporting your Red Shark Bike. Each model comes with a wheeled transport bag that holds all of the gear required.

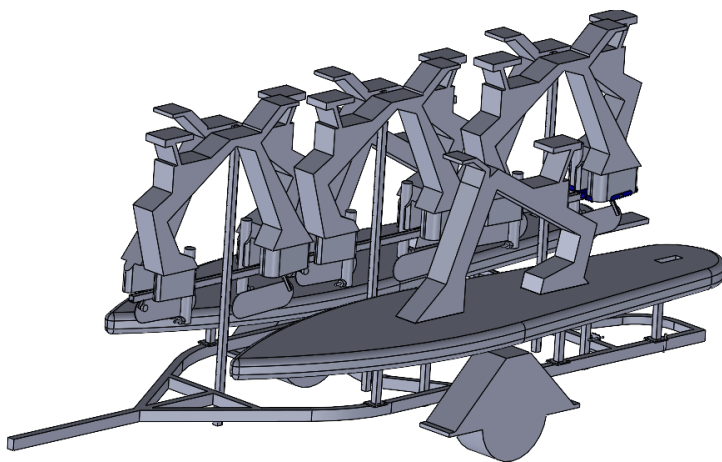

To move your Red Shark Bike to the water when your ready to go, a kayak trolley works very well. We have one trolley that we've found works well available for purchase.

With a hatchback, transporting your Red Shark Bike is easy.

Red Shark Bikes Australia has a 2 bike rack for the vehicle with a Tow Bar.

We offer a trailer for transporting 2 Red Shark Bikes fully ready for the water. A kit is also available to convert the trailer to be able to carry three Red Shark Bikes.

For bigger families, or water sports rental companies we offer a higher capacity trailer that will carry two fully ready for the water Red Shark Bikes as well as six frames ready to be inserted into an inflatable board
